

# Coding Journey Report

Data visualizations and summaries for exploring a coding journey.

Author: Mira Ale

Task name: Program 1

Typing Time: 1 minute 5 seconds

Total time spent: 1 minute 16 seconds

Average typing speed: 52 character(s)/minute

Number of lines: 11

Number of characters: 239

Number of time points: 14 (Logged at 5 seconds)

Interactive version of this report is [available here](#).

---

## Final Code

If the code contains more than one file, they are concatenated and shown.

---

==+==

FILE: Main.cpp

==+==

```
/* Sample C++ code */
#include <iostream>
using namespace std;
int main() {
    int a, b, sum;
    cout << "Enter two numbers:";
    cin >> a >> b;
    sum = a + b;
    cout << "\n The sum is:" << sum;
    return 0;
};
```

---

## Final Execution Output

Output of the most recent code execution.

---

Enter two numbers:

The sum is:11

---

## Inputs to the Code

Most recent user-typed inputs to the program (STDIN).

---

5

6

---

## Most Common Error

The most common error that occurred during the coding process; "null" (if any) indicates no errors.

---

There were no errors !

## Effort Summary

Active durations while working on the task, shown as green bars.

Active:  
1 minute 16 seconds

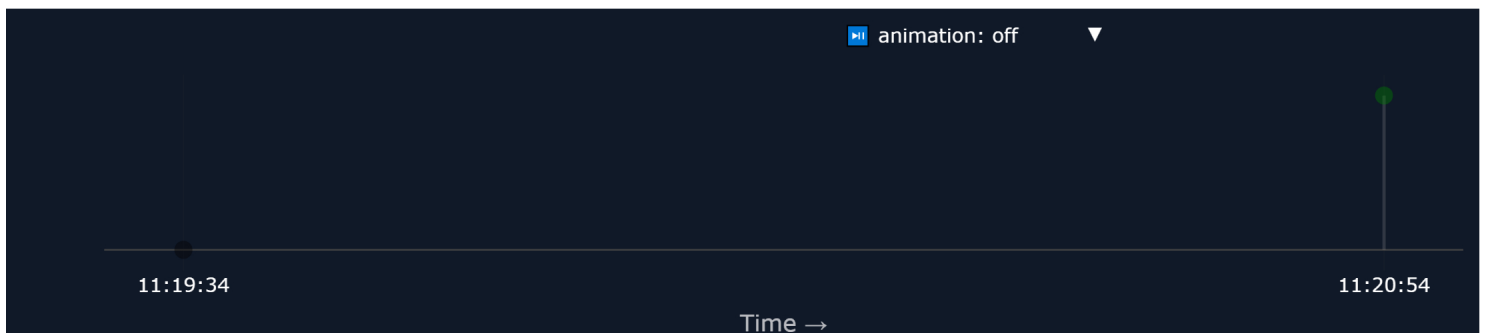

## Text Added or Removed Over Time

Green and red circles show text add and removed; size of the circle shows change in the number of characters.

## Code Executions

Green and red dots correspond to successful and failed executions.

## Typing Speed

Typing speed can be negative when text is deleted.

animation: off ▼

## Edited Line Locations (inactive durations not shown)

Each edited line block is assigned a color; highlighted bars show the line(s) edited at that time point.
